

Low Temperature Baking Equipment for Whole Grains

Low temperature baking equipment used for low temperature baking of coarse grains. In daily life, the main reason for baking is drying, reducing moisture, high temperature baking may cause the material ripe and burnt. Therefore, low temperature baking is more popular when choosing baking methods. Leader Machinery provides you with dozens of machines, choose the right one, now!

What are whole grains?

Whole grain is to point to: paddy, wheat, soybean, corn, potato kind, meanwhile, also call the foodstuff besides rice and flour as coarse grain habitually. And the whole grain also refers to the grain crop generally, so the whole grain also is the general designation of the grain crop.

A successful case of low temperature baking equipment for whole grains

Our machines have been exported to many countries: Philippines, Algeria, Egypt, India, Dominica, Zambia, Tanzania, Cote d'Ivoire, Russia, Ukraine, Uganda, Australia, Argentina, Brazil, Saudi Arabia, Libya, Syria, etc. Leader Machinery has rich export experience. If you would like to know more about our whole grain microwave baking equipment and microwave degreasing equipment, please contact us immediately!

Product specification:

model	DL-30KW	DL-50KW	DL-80KW
microwave frequency	2450/915MHz	2450/915MHz	2450/915MHz
output power	30kw	50kw	80kw
transmission speed	0-5m /min (adjustable)	0-5m /min (adjustable)	0-5m /min (adjustable)
Leakage value	≤3mw/ stere	≤3mw/ stere	≤3mw/ stere
size	10500x840x1800mm	12500x1200x1800mm	15000x1400x1800mm
Baking capacity	300-400kg/h	500-600kg/h	800-1000kg/h

Characteristics of low temperature baking equipment for whole grains:

- 1.Suitable for people of all ages, more balanced nutrition.
- 2.Reserve nutrition. Low temperature baking equipment low temperature sterilization and less loss of nutrients.
- 3.The equipment is simple to use and easy to operate.
- 4.Protect the environment.Microwave whole grain baking and curing machine is green environment, safe and sanitary, no three waste machine.

As one of the professional microwave equipment manufacturers, our Leader can provide you with different models with different power.Of course, we can customize whole-grain low-temperature baking equipment according to your requirements.If you are interested in our machines, please leave us a message.

Whole grain low temperature baking equipment prices:

We provide you with various types of low-temperature roasters for whole grains at different prices due to different power.

Transportation and import charges:

Tell us your shipping requirements and your port and we will calculate the exact price for you.

Installation charge:

If you need, we can send our engineers to your manufacturing site to guide installation and train your staff.We calculate the cost according to the days of installation.

What's more, you should tell us which model you want to buy.All expenses will be calculated after we know the exact grain baking equipment that you need.Obtain microwave baking machine prices right now!

After-sales service of microwave low-temperature baking equipment:

- 1.Spare parts for free
- 2.Video technical support
- 3.Field installation,commissioning and training.On site maintenance and repair service.
- 4.online support

Leader Machinery can provide you with detailed reports of microwave low-temperature baking manufacturing projects and reasonable prices of millet microwave baking and curing equipment .If you want to start a business, let us know immediately.Leader Machinery will become your reliable partner.
